

4G Helical Antenna

2 dBi gain

Helical coil, 700–2600 MHz.

M6 screw mount

Permanent mount on metal, vibration-resistant.

FME connector

Direct connection to Aquatosa and LTX modems.

IP66 weatherproof

Outdoor use, –40...+70 °C.

DESCRIPTION

The **4G Helical Antenna 45 mm** is a helical design with integrated M6 threaded insert for secure mounting on metal surfaces. The FME cable connector enables direct connection to Aquatosa loggers and LTX modems. With **2 dBi gain** and **IP66 rating**, it suits logger lids and pole mounts.

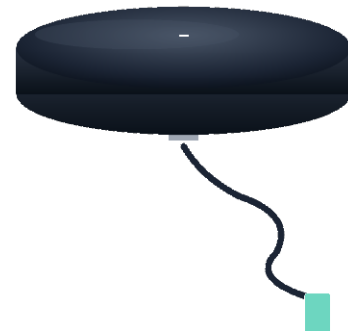

Compact 45 mm form factor with screw thread provides solid mechanical stability. Internal damping protects against vibration damage in transport and field use.

APPLICATIONS

- Logger enclosure lids with LTX connection
- Permanent field stations with fixed mounting
- Weather stations and water level sensors
- Tube and pole installations
- Redundant radio connections

4G · SCREW

Ø 48 mm

KEY FEATURES

- **2 dBi Gain** · helical design
- Frequency **700–2600 MHz**
- **M6 Thread** · firmly mountable
- **FME Connector** · direct link
- **IP66 · weather-proof**
- Operating temp –40...+70 °C
- Vibration-proof · transport safety

Technical data

4G Helical Antenna 45 mm

PARAMETER	VALUE
Antenna Type	Helical · coil radiator
Frequency Band	700–2600 MHz · LTE-M, NB-IoT
Gain	2 dBi · typ. at 900 MHz
Polarization	Circular
VSWR	<2:1
Impedance	50 Ω
Mounting	M6 Thread · on metal surfaces
Connector	FME (Reverse Polarity)
Housing	Plastic with threaded socket
Rating	IP66
Operating Temperature	–40... +70 °C
Compliance	CE (RED 2014/53/EU) · RoHS

**700–2600 MHz**

LTE-M, NB-IoT, 4G

**FME connector**

Direct connection to Aquatos and LTX

**50 Ω · VSWR <2:1**

Standard impedance, wideband-matched

**Weatherproof**

IP66/IP67 depending on model

**CE · RED · RoHS**

Radio Equipment 2014/53/EU
